New Question

what do you want to ask?

I need someone with experience to guide me through the steps of organizing an outdoor birthday event at home.

Tag

event skills

Support level

Community support

The system will transfer your question to the community and answer it as soon as possible.

Submit request

What is the benefit of supporter for this case? We could think about ways to build their reputation, then might exchange it to a valuable thing

After request submitted, there should be a process to review that question based on factors such as Political issue, scan if there is file upload

Support level

Agency support

The right company will find out the requirements, contact you to make the right consultation. All will be through the system.

Priority

High within 1 day

Service Process

- The company will give a detailed cost of each support item.
- Discuss to clear question.
- 2 parties agree to support fee.
- The system will require procedures to ensure the support contract.

 Submit request

• Show offers from agencies
+ one by one rule: Should we allow one agency accept question, discuss, give price,.. in case not make the deal, another agency must have right to pick? This prevents unfair competition between agencies, also focus on the goal of platform.

- Requester can pick from the list of offers
- Offers list show rating feed-backs for each agency/price of the service/etc.

After submitted:

Notify agency that matches skills, so the agency could have better chance and sys is more interactive

 Accept to Start

 Cancel

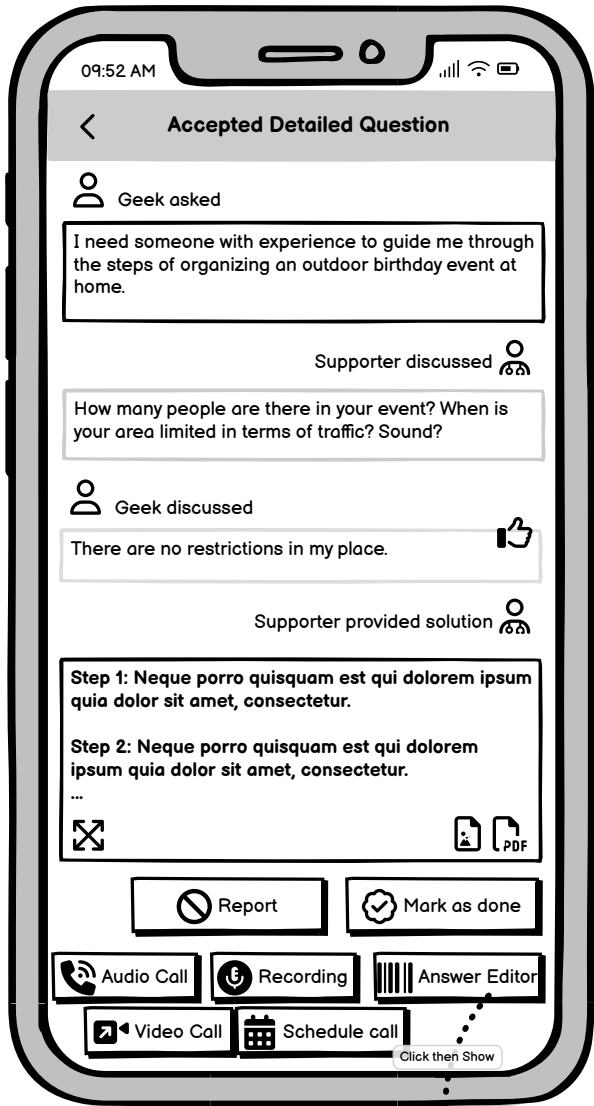

This screen is for Agency support level

Accepted: Agency picked,
Might discussion, then propose fee
When click Accept to Start: Payment process is started

Requester cancels:
status: user cancelled, same idea for agency side.
• Note reason
• Track history for the ticket => next agent can improve/handle the request better

Forward: send the question to another user in system who could answer.
Should have bonus points for forwarder after question is answered successfully.

1

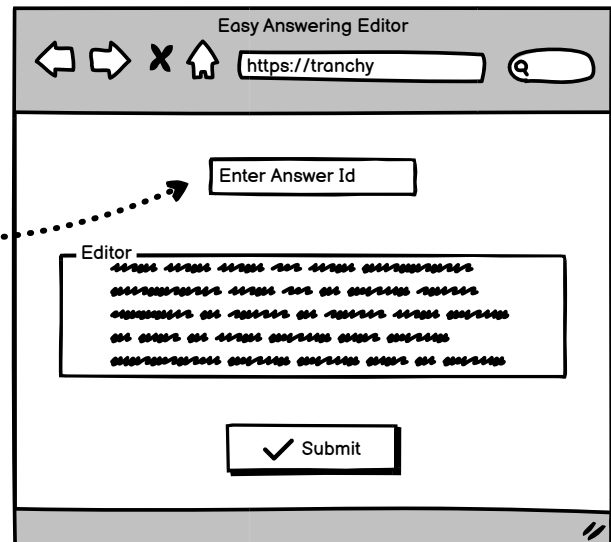

Need a solution editor so that supporter could create a formal content based suggestion/template. Also attach files like images, documents

Audio/Video call is only available for coffee/expert support. And will depend on coffee/service fee exchange

Open browser <https://tranchy>. Then enter id

Some cases, using a convenient tool (e.g: browser) is easier to answer questions.
Think of same approach questioning ???
